Muzaffarpur, Bihar

SUMMARY

Pre-final year Computer Science student (B.Tech, 2027) with hands-on experience building backend systems, full-stack web applications, and AI/ML solutions. Interested in building scalable backend systems, distributed applications, and AI-powered software products. Skilled in Node.js, Python, and PyTorch, AngularJs, ReactJs .

EDUCATION

Government Engineering College Madhubani — Bihar Engineering University **Aug 2023 – May 2027**

B.Tech, Computer Science & Engineering ***CGPA: 8.52 / 10.0*** *Bihar, India*

Coursework**:** DSA, OOP (Java/C++), Operating Systems, Computer Networks, DBMS, Discrete Mathematics

L S College Muzaffarpur – BSEB

Intermidiate, Stream – Science (PCM) ***Percentage – 82.6%***

M R S High School Muzaffarpur – BSEB

Matriculation ***Percentage – 89.4%***

TECHNICAL SKILLS

Languages:	Python, Java, C++, TypeScript,JavaScript, SQL
Frontend:	React.js, Tailwind CSS, HTML5, CSS3, Angular
Backend & APIs:	Node.js, Flask, REST APIs, WebSockets
AI & ML:	PyTorch, Random Forest, NLP (RoBERTa), Transformer,Regression
Databases:	MySQL, MongoDB
Core CS:	Data Structures & Algorithms, OOP, Operating Systems, Computer Networks, DBMS

PROFESSIONAL EXPERIENCE

Python Developer Intern — Pinnacle Full stack Intern | *Python, Api integration* **May 2024**

- Developed a **Weather Program** using Python and Tkinter, integrating weather data and displaying key information through an interactive GUI.
- Built a **Password Generator** with customizable password creation, applying Python programming and Tkinter to create a simple and user-friendly interface.Collaborating with developers and stakeholders to implement backend APIs and application features based on business requirements.

Frontend Developer— Bevarc Contruction pvt. Ltd. | *React.js, Component* **Jan-2025**

- Developed and maintained **reusable React.js components**, including responsive cards and UI sections, to create a structured and user-friendly frontend.
- Implemented **responsive layouts and interactive UI elements** using React.js, focusing on component reusability, clean design, and consistent user experience.

Angular Developer — National Informatics Center (NIC), Patna | *Angualar.js, Typescript, Api integration* **June-2026**

- Developed the **Scheme Configuration component** for the **SNA-SARSH platform** used by the Bihar Government, using Angular and TypeScript to implement structured and interactive frontend functionality.
- Worked on **reusable UI components, data handling, form controls, and user interactions**, ensuring a responsive and maintainable interface aligned with application requirements.

PROJECTS & HACKATHONS

AI-Powered XSS Detection Engine | Python, Machine Learning

- Developed an intelligent **Machine Learning-based XSS detection system** using TF-IDF vectorization and Random Forest to identify malicious and obfuscated web injection payloads.
- Built a **FastAPI-based REST microservice** and integrated it with Node.js/Express to provide real-time payload analysis and block detected XSS attacks, with support for both API and CLI-based inference.

Animal Image Classifier | Deep Learning ,Python, TensorFlow, Keras, MobileNetV2

- Developed a **multi-class animal image classification model** using TensorFlow and Keras, leveraging **MobileNetV2 transfer learning** to classify images across multiple animal categories.
- Implemented **image preprocessing, model training, validation, and performance evaluation** using Python, NumPy, Matplotlib, and scikit-learn.
- Designed the project to support **easy retraining with new datasets**, enabling applications such as wildlife monitoring, animal identification, and recognition systems.

Smriti – Cultural Club Portal | React.js, Node.js, MongoDB

- Developed a full-stack cultural and student activity portal for Government Engineering College, Madhubani using **React.js, Vite, Node.js, Express.js, and MongoDB Atlas**.
- Implemented interactive club exploration, event/fest showcases, committee profiles, responsive navigation, animations, and a multi-interest **online member enrollment system**.
- Implemented interactive club exploration, event/fest showcases, committee profiles, responsive navigation, animations, and a multi-interest **online member enrollment system**.

ACHIEVEMENTS

Medallion of Excellence in Web Technologies :

Recognized for outstanding performance in Web Technologies at the **IndiaSkills East Regional Competition 2025–26**, demonstrating strong technical proficiency, problem-solving ability, and practical web development skills.

Bihar State Rank # 2— India Skills 2025 (Web Technologies):

Secured **2nd Rank in Bihar** at the **IndiaSkills 2025 Competition** in the **Web Technologies** category, demonstrating strong technical expertise, problem-solving skills, and proficiency in developing practical web-based solutions.**Smart India Hackathon – Two-Time College-Level Winner**

Won the Smart India Hackathon at the college level twice, demonstrating strong problem-solving, teamwork, innovation, and practical application of technical skills to develop solutions for real-world challenges.

POSITION OF RESPONSIBILITY

Class Representative | Present:

Act as the point of contact between students and faculty, helping coordinate class schedules, communicate important updates, and resolve day-to-day academic concerns. Regularly interact with faculty members to ensure classes are conducted smoothly and student concerns are properly addressed.

Student Coordinator – Training & Placement Cell | Present:

Work closely with the Training & Placement Cell to coordinate placement activities, communicate important updates with students, manage registrations, and assist in organizing recruitment drives. Act as a link between students, recruiters, and the placement team to help ensure smooth and well-organized placement processes.
